I am a 3rd year student majoring in Data Science.

My portfolio: https://vankhaivn.github.io/portfolio/

Personal Projects

On my portfolio page, there are details about what I do in each project.

Sep 2023

Strategy with 48%/year profit from the stock market

- Apply Data Skills to test investment strategies. As a result of this research, I have identified a stock that fits the strategy I tested, delivering a total return of up to 370% and an average annual return of over 48%.
- Technology in use: Python (Pandas, Matplotlib, Seaborn, Numpy, Vnstock)
- Sources: https://github.com/vankhaivn/MA-Strategy-Backtest

Aug 2023

Road Accidents In England

- Use PowerBI to create a dashboard analyzing UK traffic accidents in 2022.
- Technology in use: PowerBI
- Sources: https://github.com/vankhaivn/Road-Accident

Aug 2023

Rental House Predict

- Collect data from the web, clean, and create a model to predict house prices in Da Nang.
- Technology in use: Python (Pandas, Matplotlib, Seaborn, Numpy, BeautifulSoup, Scikit-learn)
- Sources: https://github.com/vankhaivn/Rental-House-Predict

Education

2021 - 2025

Danang University of Science and Technology

Data Science & Artificial Intelligence

Certificates

Nov 2023

IBM Data Analyst Professional Certificate

https://coursera.org/share/d30ff7fb646ad95efafb7357212ee8be

Programming Skills

- Python
- Data libraries (Pandas, Matplotlib, Seaborn, Numpy)
- Craw & Clean raw data
- Machine Learning with scikit-learn
- SQL

Tools

- Power BI
- Excel
- Git
- Visual Studio Code, Jupyter Notebook, Google Colab
